EXAMINER'S AMENDMENT/REASONS FOR ALLOWANCE

As a preliminary matter, only the US patents in the IDS list have been considered. The other non-patent documents have been withdrawn since they were not provided by applicant.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The expression "provided" is added between "circuit" and "with" and the "each of said" after "with" has been deleted in line 12 of claim 1.

The title has been changed to read as "A METHODE OF ACQUIRING AN IMAGE FROM AN OPTICAL STRUCTURE HAVING PIXELS WITH DEDICATED READOUT CIRCUITS"

Claims 1 and 2 have been allowed.

The following is an examiner's statement of reasons for allowance:

The claimed method of acquiring an image is composed of individual pixels with individual readout circuits driven by a sensing node that senses charge in a charge accumulating substrate is neither taught nor rendered obvious by the prior arts.
